

Color Trends 2018

# Beauty is Color

Black, and its many variations, offers endless design possibilities. Blending bold choices in color brings energy to the spaces in which we live, create, and play. For 2018, Crossville gives you bold tile with endless options for coordination and application. Our palette offers romance, balance, and texture in the flawless performance of porcelain.

**We love the color black and try to use a little bit of it in every room we design. It acts like a neutral because it basically goes with anything. Black looks amazing even by itself. It really never goes out of style.**
