Wall Tile

Five colors; two faces; one size... who knew you could get such creativity within a small little package? With Snippet, you can. With just a left and right mirrored iteration of bold, graphic geometry, an almost endless array of patterns can be created to help you express your vision! The tone-on-tone design feels edgy and organic all at once, and the colorways match our Swatches lines to add even more options to your design. This wall tile can be used indoors in both commercial and residential spaces, making installation options a snap.

This dynamic deco, created by renowned tile designer Michael R. Golden in partnership with Crossville, is truly unique. Don't let the 3x12 format fool you... this little snippet of tile makes a huge statement when used on a large scale. Michael's vision led him to "seek a component with endless pattern options". To help you design your own unique arrangement, Crossville offers a digital pattern builder showcasing twenty-five of Michael's favorite designs and the ability to create your own in conjunction with Swatches.
